CAUE CATONE SILVA

SOFTWARE DEVELOPER

Toronto, ON • (519) 918-6506 • cauecatonesilva@gmail.com • linkedin.com/in/cauecatonesilva1551 • github.com/cauesilva1

PROFESSIONAL SUMMARY

Software Developer experienced across frontend and backend, strongest in React, Next.js and TypeScript. Built internal tooling used by engineering teams at Oi in Brazil, frontend features for an early stage startup, and two public portfolio projects. Currently based in Toronto and seeking a junior software developer role.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, HTML, CSS
Frontend: React, React Native, Next.js, Tailwind CSS
Backend: Node.js, Express, REST APIs, JWT authentication
Databases: PostgreSQL, MySQL, SQL Server, Supabase, Prisma
Tools: Git, CI/CD, Agile

PROFESSIONAL EXPERIENCE

Consultare Software | Frontend Developer, Contract Remote | May 2025 to Present

- Build web interfaces for a prelaunch early stage startup using React, Next.js and TypeScript, including dashboard screens and reusable component sets.
- Work with backend engineers to define API contracts and integrate frontend modules across core dashboard workflows.

Oi | Junior Software Developer Brazil | Oct 2021 to Dec 2023

- Built visual dashboards for the internal engineering team showing microservices activity, giving them a clear view of what was happening across services.
- Mapped API relationships across microservices so the team could see which API handled each request.
- Built a log viewer the team used to trace issues across services.
- Maintained SQL Server and MySQL schemas and Node.js and Express endpoints behind these internal tools.

PROJECTS

Contribly | Open Source Matchmaking Platform | Next.js, React, TypeScript, Tailwind CSS, GitHub OAuth

- Built a platform that connects contributors with active repositories through swipe based discovery and secure GitHub OAuth.
- Created recommendations based on issue labels and activity, plus maintainer dashboards for candidate review and project acceptance.

OmniScout | Sports Intelligence Platform | Next.js, React, TypeScript, Supabase, Prisma, PostgreSQL

- Built a sports scouting and analytics platform with responsive dashboards and interactive data visualizations.
- Structured relational data with Supabase, PostgreSQL and Prisma and built automated data pipelines. Live: omni-scout.vercel.app

EDUCATION

FASIPE | Associate Degree in Analysis and Systems Development Brazil | 2023

CERTIFICATION

AWS Partner: AWS Well Architected Proficient Issued Oct 2023
